April 2, 2002

## ACCOUNTING AND STATISTICAL NOTICE NO. 367

### Expanded Front-End Processing Schedule

CAR is pleased to announce that beginning April 1, 2002, it will begin running the front-end job-stream four nights a week. Previously these programs have run only on Tuesday and Friday nights, now they will run Monday, Tuesday, Thursday, and Friday nights. This means that CAR will provide companies with a quicker turnaround regarding the results of the statistical submissions. Please note that CAR will continue running its Statistical load process only on Wednesday nights. Accordingly, new statistical records eligible for correction will appear on CAR's telecommunication application on Thursdays.

Furthermore, we anticipate that we will run the front-end job-stream on Wednesday nights sometime in the near future, providing that the processing schedule allows for it. We hope companies will find this new schedule helpful, and if you have any further suggestions for improvements please contact you data analyst.
