ACCOUNTING AND STATISTICAL NOTICE NO. 380

Statistical Edit Changes for 2003

In advance of posting the Statistical Edit Package on CAR's website with the changes for policy effective year 2003 reporting, this Notice highlights the changes CAR has made. During the past few months, CAR has completed an intensive review of the Statistical Edit Package as compared to the Private Passenger and Commercial Statistical Plans. As a result of that review, CAR has modified some edits to make them consistent with the Statistical Plans. Accordingly, all statistical edit changes are noted below and will be included in the updated version of the Statistical Edit Package. Because there are a substantial number of edits changing, CAR is notifying the industry early so that companies can begin updating their systems. CAR anticipates posting the updated edit package no later than February 7, 2003.
