ACCOUNTING AND STATISTICAL NOTICE NO. 404

2004 Statistical Edit Package and Classification Assignment Table

CAR has updated the Statistical Edit Package (www.commauto.com/manuals) for policy year 2004 premium and loss reporting. Also available on CAR's website is a new, more user friendly version of the Classification Type Assignment Table. The improved document looks the same way as when CAR produced it on paper and eliminates the need for the accompanying explanation document.

There are six edit changes in 2004 which are outlined below. Please note that the Division of Insurance has not yet approved the statistical plan changes that impact the statistical edits noted below. If there is a change as a result of that decision, CAR will publish a new accounting and statistical notice to the industry.

Edit	Change
Class Code/CAR ID Code Agreement	Due to changes in the Garage Policy, the following class codes will no longer be cedable to CAR for policies effective July 1, 2004 and subsequent: 075000, 707000, 780800, 781000, and 781200.
S19 – Medical Payments Limits	Private passenger and commercial motorcycles now have optional medical payment coverage of up to \$50,000. Accordingly, the edit was updated to include limit code of 10 for private passenger and commercial motorcycles.
S23 – Anti-Theft Device Discount	With the additional discount category created for a signal activated vehicle recovery system, there are four new anti-theft device discount codes. The new codes are 8, 9, A, and B.
S40 – Transaction Type Code	This edit was modified for commercial records only to include type of loss 10 on records reported with transaction type code 25.
S47– Hi Theft	With the additional discount category created for a signal activated vehicle recovery system, there are four new anti-theft device discount codes. The new codes are 8, 9, A, and B.
S49 – Vehicle ID Number	The S49 edit was updated to not perform the age comparison routine on vehicles that have an incomplete chassis designation embedded in the VIN.

The Statistical Edit Package contains the detailed reporting requirements for submitting statistical data to CAR. If you have any questions regarding any edit changes or reporting requirements, please contact your Data Analyst or the undersigned at 617-338-4000 x237.
