ACCOUNTING AND STATISTICAL NOTICE NO. 412

Addition of Confirmation Reports and Shipment Activity Report to CAR's Website

CAR is pleased to announce three new secure reports to assist companies in monitoring their data submissions and to balance back to the quarterly Settlement of Balances reports. To find these reports on CAR's website, please click on Reports, Data Quality, and then Statistical Data.

- The Shipment Activity Report provides a list of all shipments that CAR has received for each accounting date. It includes information such as the date received, the tape number, the accepted or rejected status, record count, and dollar amount. This report will prove to be an invaluable tool for companies to track the submission of their data and each file's acceptable status.
- The S016 – Confirmation of Ceded Data Report mimics the hard copy S016 report that CAR mails weekly to the industry. The online report will be a cumulative file that organizes the ceded data into the quarter date that it was submitted to CAR. By making it a cumulative report and organizing it into quarters, the industry should have a more efficient process for balancing the ceded dollar totals to the Settlement of Balances reports. CAR will continue to produce the hard copy report for six months to allow the industry time to transition to the online report.
- Like the S016 report, the S017 - Confirmation of Ceded Taxi/Limo/CAR Service Data Report line report mimics the S017 hard copy report. It also organizes the ceded dollar totals into the corresponding Settlement of Balances reports for a more efficient way to balance each quarter.

CAR believes the industry will find these new online reports invaluable in balancing data submissions and to monitor their acceptance. In order to gain access to any one of these reports, please contact your company's security administrator. If you have any questions, please contact your company's Data Analyst or the undersigned at 617-338-4000 x237.
