2005 Statistical Edit Package and Classification Assignment Table

CAR has updated the Statistical Edit Package (www.commauto.com/manuals) for policy year 2005 premium and loss reporting. The 2005 Classification Type Assignment Table is also available on CAR's website. There are many new classification codes pertaining to motorcycles and additional private passenger classes for drivers aged 75 and older. The tables on the following page show all new classification codes for 2005.

There are six edit changes in 2005 which are outlined below. Within the next few months, CAR plans to include classification and coverage code lookup functions on its website in addition to providing on-line version of the following two reports: the S018 – Confirmation of Deviated Premium Report and the S040 – Listing of Converted/Unprocessable Records Report. As part of this year's update, CAR previously added the S135 – Washout Within Listing as a secure report to its website.

S24 – Coverage Code	For clarification, the edit was not editing coverage code and classification code correctly on commercial records with coverage codes of 041, 092, and 095.
S29 – Value Code	For policies effective 2005 and subsequent, the method for reporting value code has been modified. Motorcycle value will be rounded up to the nearest hundred dollars and the rounded value will be used to determine the Value Code.
S34 – Loss Dates	This edit was modified to allow for accident dates to exceed the policy effective date by five years.
S38 – Type of Loss/ Coverage Code	This edit was updated for consistency regarding coverage codes 087 and 088. Those two coverages are not valid on collision loss types.
S47 – High Theft	For clarification, this edit was updated so that the Anti-Theft Device Discount Code is valid for the relative the High Theft Vehicle Codes.
