| 2    | Q: No, no, no let me just ask you some questions. This is under Rozana Lima. She is apparently a girlfriend of yours. Is that correct?  A: Pretty soon to be ex-girlfriend.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 2    | Q: The reason for my call is that we're just trying to verify certain information on this policy and we have you listed as an operator for her business and it lists you as a salesman and driver for the business of internet sales and you operator her Ford Contour, white, licensed plate  This is the information that has been given to us. Now, what can you tell me about what has happened on this transaction?  A: She had asked me if I would go to her agent with her because he wanted a check for payment on her policy and she gave me cash in return. So, I went with her to her agent. I don't even believe we were living together at the time. We were just dating, I believe. I joined her at the agent, I don't |
| 3    | Q: Do you remember where? A: Yeah, it was in                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 3    | Q: Okay and do you remember when? A: It was during the summertime sir. Couple of months ago, I don't know exactly.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 3.   | Q: Now what was the purpose for you paying for the monthly insurance premium?  A: She doesn't have a checking account, so she gives me the cash and I write a check.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 4    | Q: You said they asked you to be, asked you if you wanted to be a listed driver on the policy?  A: Yes.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 4    | Q: What was that all about?  A: They asked me if I wanted to just as I'm saying, they said, "Would you like to be                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

|   | an additional driver on there?" and I said, "Well, I don't mind." I said, "If something |
|---|-----------------------------------------------------------------------------------------|
|   | happened to my car or you know something happened to her that I could use her car,      |
|   | yeah, why not, put me on." I mean I have additional drivers on my car. So I didn't      |
|   | think anything of it.                                                                   |
| 4 | Q: And were you aware that you were listed as a salesman and a driver for the           |
|   | company?                                                                                |
|   | A: No sir.                                                                              |
| 4 | Q: Okay. Yeah the name is, well again this is the business that you're listed on to     |
|   | drive, it's called Rozana Universal Sales, You know                                     |
|   | anything about that?                                                                    |
|   | A: Nothing.                                                                             |
| 4 | Q: Nothing at all. Okay.                                                                |
|   | A: Nothing.                                                                             |
| 4 | Q: Do you know, was it ever mentioned to you by the agency and by the way, who at       |
|   | the agency did you deal with? Do you remember?                                          |
| 5 | A: Daniel Delima.                                                                       |
| 5 | Q: Okay and it was his idea you said?                                                   |
|   | A: Yes.                                                                                 |
| 5 | Q: Now, you spoke with him a while ago you said, or you called the agency. What         |
|   | was the conversation about?                                                             |
|   | A: I asked him, "I don't wanna be an extra driver on the car because I've been          |
|   | contacted by somebody at the insurance agent. I don't like what I heard". I don't       |
|   | even know what I said I was upset. And I, I'm not sure what I said. I just said I don't |
|   | wanna be on, listed as an extra driver. I don't want anything to do with it. I've never |
|   | driven her car, by the way. Never.                                                      |
| 6 | A: He said if you come off her insurance, they'll cancel her and I don't understand     |
|   | that part. He didn't say why, he just said they'll cancel her insurance.                |

- A: I don't even know what she's talking about.
- Q: Okay.
- A: I'm not trying to set her up for to get in trouble. I don't know her business. I tried to explain that to her.
- Q: Okay.
- A: And I don't wanna, you know, why am I dealing with this?
- Q: Alright.
- A: I mean all I did was sit...
- Q: Alright, do you have a few minutes?

Q: No, no, no let me just ask you some questions. This is under Rozana Lima. She is apparently a girlfriend of yours. Is that correct? **A**: Pretty soon to be ex-girlfriend. Okay. Just like we discussed this morning Ray, the reason for my call is that Q: we're just trying to verify certain information on this policy and we have you listed as an operator for her business and It lists you as a salesman and driver for the business of internet sales and you operator her Ford Contour, white, licensed This is the information that has been given to us. check for payment on her policy and she gave me cash in return. So, I went with her to her agent. I don't even believe we were living together at the time. We

A:

Q: Do you remember where? A: Yeah, It was in Everett. Q: Okay and do you remember when? A: It was during the summertime sir. Couple of months ago, I don't know exactly. Q: Okay. Go ahead. A: So, I took her cash and I wrote a check to the, 2 checks, because I didn't have enough money in the bank at the time to pay the whole amount. So, I wrote 2 checks for 2 separate weeks to the agent. Q: Do you remember how much those were? A: No. I don't. Q: Okay. This is back in the summer you say, huh? A: Yes. Q: Okay. A: And I witness her give her title to the agent. Q: You what now? A: I witnessed her give the title of the car to the agent. Q: Oh you did? A: Yeah. Q: Now how come you had the title? A: I didn't have the title, she did. Q: She did, okay. A: She gave the title. Q: Now what was the purpose for you paying for the monthly insurance premium? A: She doesn't have a checking account, so she gives me the cash and I write a check.

- 🦳 Q: Okay. You...
  - A: She has a joint account with her daughter and for some reason she doesn't have checks. I didn't think anything of it, just took the money and would deposit it and write a check.
  - Q: You said they asked you to be, asked you if you wanted to be a listed driver on the policy?
  - A: Yes.
  - Q: What was that all about?
  - A: They asked me if I wanted to just as I'm saying, they said, "Would you like to be an additional driver on there?" and I said, "Well, I don't mind." I said, "If something happened to my car or you know something happened to her that I could use her car, yeah, why not, put me on." I mean I have additional drivers on my car.
  - Q: Umm hmm.
  - A: So, I didn't think anything of it.
  - Q: Umm hmm. And were you aware that you were listed as a salesman and a driver for the company?
  - A: No sir.
  - Q: No. Okay, her company is listed as internet sales. I don't know if you knew anything about this. How long have you known her?
  - A: For a few years. I dated her off and on for probably, I've probably known her for 4 years.
  - Q: Okay. Yeah the name is, well again this is the business that you're listed on to drive, it's called Rozana Universal Sales, You know anything about that?
  - A: Nothing.
  - Q: Nothing at all. Okay.
  - A: Nothing.
  - Q: Do you know, was it ever mentioned to you by the agency and by the way, who at the agency did you deal with? Do you remember?

|    | A:          | I told you his name earlier. Let's see if I have it handy.                                                                                                                                       |

|    | A:          | Hold on, I think I've got it here.                                                                                                                                                               |

|    | A:          | Daniel Delime.                                                                                                                                                                                   |
|    | Q:          | Okay.                                                                                                                                                                                            |
|    | A:          | D-E-L-I-M-A.                                                                                                                                                                                     |
|    | Q:          | Okay and it was his idea you said?                                                                                                                                                               |
|    | A:          | Yes.                                                                                                                                                                                             |
|    | Q:          | Okay. And she                                                                                                                                                                                    |
|    | A:          | I didn't think of anything of it. It's done all the time. I mean                                                                                                                                 |
|    | Q:          | Umm hmm.                                                                                                                                                                                         |
|    | A:          | You get an extra driver on it. All you gotta say is, "Have them on my car."                                                                                                                      |
|    | Q:          | Now, you spoke with him awhile ago you said, or you called the agency. What was the conversation about?                                                                                          |
|    | A:          | I asked him, "I don't wanna be an extra driver on the car because i've been contacted by somebody at the insurance agent. I don't like what I heard". I don't even know what I said I was upset. |
|    | Q:          | Umm hmm                                                                                                                                                                                          |
|    | A:          | And I, I'm not sure what I said. I just said I don't wanna be on, listed as an extra driver. I don't want anything to do with it. I've never driven her car, by the way. Never.                  |
| () | Q:          | Do you know what kind of car she has?                                                                                                                                                            |
|    |             |                                                                                                                                                                                                  |

- A: Yeah. She's got a Ford Contour. I don't know the plate number off hand but it's green, it's not white.
  - Q: Okay. Have you ever driven the Acura? She has an Acura as well. Have you ever driven that?
  - A: No.
  - Q: Okay.
  - A: No, no.
  - Q: Now, what did Daniel say something to you about her not having a license or what did you earlier say?
  - A: No, I don't think he said anything about her not having a license. I think he said something about that, I, it's really unclear to me. I was upset. As a matter of fact, I slammed the door to my office because I was yelling and I slammed the door and they told me not to do that, you know?

    To take my personal business outside, so...
  - Q: You mean your company?
  - A: Yeah.
  - Q: Oh, okay. Well, I don't want to put words in your mouth but you earlier said just 30 minutes ago that, this is a way for her to get insurance on the vehicle, is to use your license. You didn't say that?
  - A: He didn't say it like that.
  - Q: How did he say it?
  - A: He said if you come off her insurance, they'll cancel her and I don't understand that part. He didn't say why, he just said they'll cancel her insurance.
  - Q: Oh.
  - A: How can they do that if she has a premium, I'm not..
  - Q: Okay. Okay. I see.
  - A: That's what he said, he said they'll cancel her insurance.
  - Q: Umm hmm.

- A: And I said, "What are you talking about?" And that was about it, you know, I said, "Look, I'm not gonna get entwined in, in this. Take me off as a driver. I want nothing to do with it."
  - Q: Okay.
  - A: And that was it, you know?
  - Q: They'd...
  - A: Why would he cancel her? I mean, I don't know.
  - Q: Well, it's something the insurance department would answer.
  - A: Why would he give her a premium in the first place?
  - Q: Yeah, I can't answer that right now Ray, to be honest with you. I mean certain things we have to talk to Rozana and get her side of the story also. Which...
  - A: Well, I don't have any side it's just that I was asked to be a driver. I don't know anything about her business and I don't wanna be listed as a driver anymore and I never drove her car.
  - Q: Okay, that's fine. You don't know anything about Universal sales right?
  - A: Nothing.
  - Q: Okay.
  - A: Nothing.
  - Q: She does live at the same place you did, you do, for a period of time?
  - A: Yes.
  - Q: Okay and the reason why you pay the insurance because she has no checking account.
  - A: That's correct.
  - Q: Alright, she hands you, gives you cash at certain times of the month and you convert that and you pay them?
  - A: Yeah and all the proof is the deposits that go in my bank.

|  | Q: | Sure. Absolutely. Have you ever filled out anything over there? Signed anything or just provided you license?                                                                                            |
|--|----|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|  | A: | Just provided my license. I never signed anything that I remember.                                                                                                                                       |
|  | Q: | Okay. They've never promised you anything? They would give you anything or thanks for helping or anything like that?                                                                                     |
|  | A: | No, no, nothing, no.                                                                                                                                                                                     |
|  | Q: | Okay.                                                                                                                                                                                                    |
|  | A: | No, I would have got suspicious that they would offer me something. Why would you offer me something for being a driver?                                                                                 |
|  | Q: | Sure, sure.                                                                                                                                                                                              |
|  | A: | You know?                                                                                                                                                                                                |
|  | Q: | Okay. Anything else that comes to mind Ray that you think might be important?                                                                                                                            |
|  | A: | I just don't like the flavor of this whole thing.                                                                                                                                                        |
|  | Q: | Okay.                                                                                                                                                                                                    |
|  | A: | I mean, why would I be bothered for offering to be an extra driver and nothing more than that. You know, I'm confused.                                                                                   |
|  | Q: | Well, you know                                                                                                                                                                                           |
|  | A: | l don't even know what's wrong.                                                                                                                                                                          |
|  | Q: | We may be confused also because you know, I'm reading right here, the documents in our file that you're listed as a driver and a salesman for this company. What more can I say? I'm not making this up. |
|  | A: | I'm not asking, I'm not accusing you of making it up but I work for in Mass. I'm a laser manager.                                                                                                        |
|  | Q: | Umm hmm.                                                                                                                                                                                                 |
|  | A: | I've been here for 3 years. I've been a metalfor all my career I am not, I do a certain amount of selling for but I do not work in any way for Rozana Lima.                                              |
|  | Q: | Okay.                                                                                                                                                                                                    |

- A: I don't know anything she does. She could be selling gummy bears to a supermarket for all I know.
  - Q: Gotcha.
  - A: I never, dove into her business because I'm not married to her. She lives with me and we've talked about ending the, you know, the relationship for whatever reason.
  - Q: Okay, you...
  - A: So I mean I don't know any more than that. I know she's having health issues and you know, other issues and I have no reason at all to question her or doubt her. I mean she goes to church 7 days a week and I wouldn't think that she would try to deceive me but obviously there's something behind all this.
  - Q: Umm hmm.
  - A: I've never been questioned before since I've been driving. Since I was 15 and a half and never been questioned about being put on someone, as an extra driver. So, this whole thing is a little suspicious to me, at the very least. I'm trying to understand it and you know. And I can only tell you what I know and what I don't know and I don't know what's going on and I don't want to be an extra driver. I can tell you I haven't done anything wrong, I've never even driven the car!
  - Q: You have your own car right?
  - A: Yes. I have an 10' Camaro and before that I had 2 cars. I had a 10' Camaro and a Isuzu, I would drive in the winter and this In the summer but I had trouble with the Isuzu, so I got rid of it.
  - Q: Gotcha.
  - A: And I'm gonna try to get another, the weather's been really good, thank god.
  - Q: Umm hmm.
  - A: That I've been able to drive the Camaro but I drive it every day.
  - Q: Okay. Airight, I appreciate it Ray. You were aware that this is recorded conversation, right?
  - A: Yes.
- Q: I'm gonna turn it off.

A: And if they wanna put me down as the President of the United States that's fine but it doesn't mean it's true. Q: Right, right. I just hope, I didn't sign, I don't remember signing any documents. A: Q: Umm hmm. A: I hope they didn't slip me a document to sign and I didn't pay attention. Q: Yeah, I'm just asking. I don't know. Only a couple of months ago, right? A: Well, it was during the summer. It was probably around July time frame, June time frame, I don't know. Somewhere around there. Q: Yeah. A: I don't when the policy, when the policy started. Q: Right. Nothing else was said? Nothing else at that meeting that you could think of? A: No, I mean, just, it went smooth. I mean I gave them the money. He gave her her, he sent, nah I don't even think he gave her the policy. I mean that was it, vou know? Q: Okay. A: Gave him what he wanted so she would get insurance and then ... Q: Did you do this, did you make this arrangement also at another period of time with another insurance company? A: No. Q: You know the previous carrier? A: No. No sir. Okay, so this is the first time you've helped out on this. Q: **A**: Yes. Yeah. Q:

And I don't even look at it as helping out.

A:

Q: Uh huh. A: I just look at it as, look I'm an extra driver, you broke your leg, you need me to drive your car. Q: Yeah. I'll drive your car. You follow me? A: Q: What did this guy over at, Daniel, at Rapos say to you just awhile ago? What was he saying? He just said that they could cancel her insurance and I said, "For what?" A: Q: Uh huh. And you know, he didn't tell me and then he said, "I'll make sure I take your A: name off." Okay. He said that. Q: And she called me up yelling. A: Q: Okay. A: So... Q: Did she have correspondence with him over the telephone? A: What do you mean? Q: Just awhile ago? A: Yeah. Q: Okay. Yeah, he did. But it was only to tell him to take me off the policy. A: Q: Umm hmm. A: I don't warma be on the policy. Q: Okay. And there's nothing wrong with that. I haven't driven the car. So whatever they A: accused me of, if I'm not on the policy...

Q: Umm hmm. A: Then I don't have to worry about anything, right? Q: Right. A: Not that I had to worry anyways cause I didn't do anything. Q: Does she, does anybody else drive her cars, you know? Like a son or a daughter or somebody like that? That you know of? A: Not that I know of. Q: Okay. Alright, I appreciate it Ray... A: Listen, I know she has a daughter that drives the Acura. Q: Oh, okay. Really? Do you know what her name is? A: It's a Brazilian name, you know, you're asking me. I'm not really sure. Q: That's okay but her daughter drives the Acura? **A**: Yeah. Yeah, I don't know any more than that either. Q: And Rozana drives the Contour. **A**: Yes. Q: Okay. A: And I never drove it. I've been it while she's driven it. O: Umm hmm. A: But I haven't driven it. Okay. Thank you very much Ray, if anything else comes to mind, can you give Q: me a call? A: Yes, I mean...

Q:

A:

Appreciate it.

You know, listen, if she asked me to see my license. I would say, "What for?"

- 🦳 Q: Umm hmm.
  - A: So you know, what do you want to see my license for?
  - Q: You don't know if she has a license do you? Is that something you don't even, you're not interested in?
  - A: I'm not, I do care, she should have one.
  - Q: Umm hmm.
  - A: But I never inquired about it.
  - Q: Okay. So nothing you talked about with her.
  - A: No, no.
  - Q: Okay. Airight.
  - A: No, why would I do that, you know?
  - Q: Yeah.
  - A: I mean she never even, I mean she drives well. She's been in this country for a long time. I would imagine that she must have a license. I mean how can you not have a license and get a policy?
  - Q: Umm hmm.
  - A: You know, it doesn't make any sense.
  - Q: Right. Alright Ray...
  - A: Now look.
  - Q: Yeah?
  - A: I just wanted to point out something.
  - Q: Yeah. Go ahead.
  - A: Here's what I thought about.
  - Q: Uh huh.

- A: And I asked my insurance agent, they can't give her a policy when she has a license. So, I'm not an insurance guy but you know, I gotta believe that she's got a license. I mean, how did she get a policy?
- Q: Umm hmm. Okay.
- A: Unless they, the only other thing I can think of is, you know, they pull a fast one on me but, my goodness, I would sue the insurance company. But then, wouldn't the policy have to be in my name and the title of the car have to be in my name?
- Q: I don't know. What do you mean by, "pull a fast one?" What do you mean by that?
- A: In other words, instead of using me as the extra driver.
- Q: Umm hmm.
- A: They would say I was going to be, the car was going to be in my name. But then the policy would have to be in my name and the title would have to be in my name.
- Q: Umm hmm.
- A: So, that doesn't make sense. I mean, I don't know a lot about it.
- Q: Yeah.
- A: I just know that, how can she have a policy in her name and I can understand her saying I'm a salesman and not being true and I don't know why she would do that.
- Q: You can understand that? What do you mean by that?
- A :Oh no no no no. I mean, I'm sorry. I can understand why she would, maybe, call me a salesman.
- Q: Okay.
- A: I can't. I meant to say, "I can't understand it."
- Q: Okay. Gotcha.
- A: You know. It doesn't make sense.
- Q: Alright.

Because I don't know anything about and, her business, you know, obviously. A: she must, she does have income. Q: Umm hmm. So she very well could have some sort of a business. I don't know. A: Where does she go to work every day? Q: I believe she works in electronics up in Newburyport. A: Q: ·Okay. I believe that, you know, the computer thing must be a part time thing. A: Q: Okay. A: Cause she's on it after work. Umm hmm. Okay. Thank you very much Ray. Q: I mean what does this all boil down to me? I mean are you gonna make sure you A: get me off the driver? Well, we're certainly gonna pass this information on to the people that take care Q: of this. And I'm gonna pass on that you don't wanna be on here anymore. You've already made that clear to the agency, so I'm sure in the very near future that's gonna be done at the earliest time. Well, here's my problem. Here's my problem. A: Yeah. Q: You wouldn't be questioning me, one thing I do know, you wouldn't be A: questioning me or investigating this unless there was a rat somewhere. I don't want to be entwined in any kind of illegal, if there is any. Okay. Q: I don't know if there is, I don't know if there isn't. I don't have enough A: information. Uh huh. Q: But I don't wanna be entwined in any of that, so, you know please bare that in A:

mind.

- Q: I will. I'll make that note.
  - A: And you know, also, if anything is going on, I certainly didn't know that I was being put down as a salesman. You've got to be kidding me.
  - Q: Okay. Hey, that's why we're calling. We're trying to verify all aspects of the information on this policy. You know, as well as others. We just didn't pick this out of the pack. We've got a lot of these. We want to just verify.
  - A: Well, can I just ask you one question, sir?
  - Q: Uh huh.
  - A: Hopefully, you can answer it.
  - Q: Yeah.
  - A: What's the follow to this for me? I mean, here I am, trying to do an innocent thing, trying to help pay cause she doesn't have a checking account. I should have told her to get a money order and stay out of if completely.
  - Q: Yeah. Ray, I don't know what the fall out is right now. I can't answer that until we have all the facts in front of us. I have still have yet to speak with Rozana.
  - A: Well, the thing you got to understand is, everything I've told you was the truth.
  - Q: Okay.
  - A: I wouldn't of had you record it.
  - Q: Alright,
  - A: One, and I would absolutely say the same thing under oath.
  - Q: i appreciate it.
  - A: So, I don't know what else to tell ya.
  - Q: Okay. There's nothing more. If there's no other information you think is pertinent to this then, so be it, that fine. I appreciate your, your cooperation.
  - A: Well, I just wanna make sure that I don't have to look over my shoulder for something I didn't do.
  - Q: Yeah, well. I doubt it, I doubt it. So, let us just finish up here and hopefully I'll be able to speak with her today.

- A: Okay.
  - Q: Thank you Ray.
  - A: Oh you're welcome
  - Q: Alrighty buh bye.
  - A: Well, let me know how this turns out?
  - Q: I will. Anything else, give me a call.
  - A: Well, doesn't it matter that I never even drove the car?
  - Q: Yeah, you know. I don't know. This is the first I've ever heard of it. You've never driven the car, so, one would think that you're a salesman for this company of hers, you're a driver. I would have thought you've driven the car every day. You know so, you're telling me otherwise.
  - A: I never drove the car.
  - Q: Yeah. Duly noted.
  - A: I've got my own car.
  - Q: Okay. Thanks Ray.
  - A: And I don't work for her.
  - Q: Thank you sir.
  - A: I mean isn't that why, well this is the last time I will ever volunteer to be a spare driver for anybody.
  - Q: Yeah, that's probably a good idea.
  - A: Yeah, well. She was my girlfriend, I mean, she sald would you be an extra driver and I said, "Yeah, I don't mind." You know, she said you know I might need a ride, it makes it legal. I mean that's the way it was put to me and I said, "I don't mind." I mean if I drive the car, I've got a good driving record.
  - Q: Umm hmm
- A: I really don't mind. It turns out, I wake up in the morning and I got a message from you and I didn't really take it that serious and now I'm taking it very serious.

- 🔌 Q: Umm hmm.
  - A: I'm really not taking, well I am taking it serious, but I'm not because I never drove the stupid car.
  - Q: Okay.
  - A: You know and the policy was not in my name.
  - Q: Yeah I know that.
  - A: If the policy was in my name I guess I would be worried but it's not in my name. The car was not, the title was not in my name. Nothing is in my name. Other than I'm to be an extra driver. As far as driving that car and being a salesman. Absolutely not.
  - Q: Okay.
  - A: I can have the owner of where I work testify I am at work every single day.
  - Q: Umm hmm.
  - A: And I do not drive for her. I do not know about her business. She could have one. Keep that in mind but I don't know anything about it. I certainly do not enjoy the proceeds if there are any.
  - Q: Yeah. Airight sir. Thank you Ray. I'll talk to you later.
  - A: it's important I'll say it a second for the second time. Nobody offered me anything.
  - Q: Okay.
  - A: I mean, I just thought it was routine what they were doing.
  - Q: Okay.
  - A: Alright?
  - Q: Thank you.
  - A: Are we square?
  - Q: Yeah, we're square.
  - A: Alright, will I hear from you again?

- Q: Yeah, you probably will.
  - A: Okay.
  - Q: Thank you Ray.
  - A: Alright
  - Q: You have a good one.
  - A: Okay.

| 6 | Q: Did they tell her that they were doing anything like that for her?  A: No.                                                                                                                                                             |
| 6 | Q: When did she become aware that she had a business policy for a business?  A: I would like to verify,                                                                                                                                   |
| 6 | Q: Yeah.  A: Because the lady told me that there was an error in the insurance. That the error had to be corrected.                                                                                                                       |
| 6 | Q: What lady told you that? Is this a lady at the same place or a different place?  A: No. I went to a different place, not there.                                                                                                        |
| 6 | Q: Why did she go to this different place?  A: Because my father was trying to get insurance coverage under my name with her so when she checked on the computer, she realized there was an error.                                        |
| 7 | Q: And now that you know that you have a business policy, I'm correct that you don't have a business, is that correct?  A: No, I don't have anything like that.                                                                           |
| 7 | Q: And you never gave anyone permission to create one for you?  A: No. I never — I never gave permission not anyone to establish anything like that.  I don't want anything like that at all.                                             |
| 7 | Q: So when she went in there initially to Leandro to get an insurance policy, was it her inten – she just wanted to register and insure the car to her, Maria Maza Guisha, correct?  A: Yes. That was my sole intention, and then I left. |
| 7 | Q: So she had no knowledge that this business or this tax number was going to be created, is that correct?  A: No. I wasn't aware of any of that.                                                                                         |

|         | Q. Let the record show that she has handed me a license from the Country of Ecuador. Fler name listed on it is Maria Yolanda Maza Guisha — G-U-I-S-H-A. And it lists her date of birth as — actually I don't see it on there. Interpreter, could you just ask her for her date of birth? |

- A. No. They never asked me for anything like that
- Q. Did they tell her that they were doing anything like that for her?
- A. No.
- Q. Did they ever mention to her anything about signing her up for an auto club or anything like that?
- A. Can you please repeat that last statement, sir?
- Q. Yeah I wanted to know did they ever mention to her signing up for an auto club of anything like that?
- A. No.
- Q. When did she become aware that she had a business policy for a business?
- A. I would like to verify.
- Q. Yeah.
- A. Because the lady told me that there was an error in the insurance. That the error had to be corrected.
- Q. What lady told you that? Is this a lady at the same place or a different place?
- A. No. I went to a different place, not there.
- Q. Why did she go to this different place?
- A. Because my father was trying to get insurance coverage under my name with her so when she checked on the computer, she realized there was an error.
- Q. Okay. So she went with her father to get insurance at this different place, and that's when this other person found that it was set up as a business, correct?
- A. Yes. Only for his car, we were looking for another policy.
- Q. And when she found out that there was a business set up, what did she do?
- No. I didn't say anything.
- Q. The other place that she went, does she know the name of that place or the name of the person?
- A. No. I don't know that. My dad would know that.
- Q. Okay. If I would say to her, prior to when I had called, I think I had talked to her father Augusto, is it Dee? Does that sound right?
- A. I would like to verify. Did you say Dee?
- Q. Yeah. D-E-E. Dec.
- A. Yes.

- Q. And does she work at to my knowledge, she works at People's Insurance over in Lawrence? Is that correct?
  - A. Yes, she does work there.
  - Q. And now that you know that you have a business policy, I'm correct that you don't have a business, is that correct?
  - A. No, I don't have anything like that.
  - Q. And you never gave anyone permission to create one for you?
  - A. No. I never—I never gave permission to anyone to establish anything like that. I don't want anything like that at all.
  - Q. So when she went in there initially to Leandro to get an insurance policy, was it her inten she just wanted to register and insure the car to her, Maria Maza Guisha, correct?
  - A. Yes. That was my sole intention, and then I left.
  - Q. So she had no knowledge that this business or this tax number was going to be created, is that correct?
  - A. No. I wasn't aware of any of that.
  - Q. If she could fix this and change, since she says that she doesn't have a business, if she could insure the vehicle in her own name individually, would she want to do that?
  - A. Could you please repeat the question?
  - Q. Sure. If she could insure the vehicle not as a business and insure it to her individually, would she want to do that?
  - A. Yes. I want to \_\_\_\_\_\_insurance, nothing like that.
  - Q. So would that be a yes that she would want to do that to her individually?
  - A. Yes.
  - Q. And that's because she does not have a business and had no knowledge of this before, correct?
  - A. No.
  - Q. Sorry, interpreter, I didn't get that. Was that a no?
  - A. Interpreter will repeat. No.
  - Q. Okay. Thank you. I guess I'm confused then. Did you know about the business policy before?
  - A. No. I wasn't aware of any of this.
  - Q. All right. It was only when who told her that there wasn't a business?
  - A. No. I don't have any kind of business.

- Q. Okay. Was it when Dee from People's Insurance told her that it was insured as a business, that was her first knowledge of it being a business, correct?
  - A. Yes. It was at that moment.
  - Q. And am I correct that it's her wish to change it from a business to not a business, correct?
  - A. Yes, I want to switch that.
  - Q. All right. We're going to look into that and see more about her policy and whatnot. At this time, I just want to confirm, were all her answers that she gave true to the best of her knowledge?
  - A. Interpreter will repeat. Yes. Please help me. Help me fix this please.
  - Q. And I just want to reconfirm, this conversation was recorded with her permission, correct?
  - A. Yes.
  - Q. And, Daniel, the interpreter for the language of Spanish, I just want to confirm, your interpreter number is 664718. Is that correct?
  - A. That is correct,
  - Q. All right, And could you just I want to thank Maria for her time, and then I'll end the recording.
  - A. That's fine. Thank you.
- Q. At this time, I'm going to end the recording.

Male Speaker: Have you ever had insurance on a car before?

Q. Have you ever had a vehicle before or insurance on a car before, other than this one? So before this car did you ever have insurance on a car?

- Claim No.
  - A. Yeah, I have the insurance, but this is a different insurance.
  - Q. Okay, different company?
  - A. Different company.
  - Q. When you went to that insurance company or agent, was it different than when you went to this one?
  - A. Yeah, it's all different, it's not like that.
  - Q. What happened at the other company?
  - A. Nothing, it's like working... Working good.
  - Q. And what was the reason for going to this one then, you bought a new car or...
  - A. Yep, yeah.
  - Q. Did anyone tell you that it would be cheaper to go to this agent or through this insurance?
  - A. No.
  - Q. A friend or anyone like that?
  - A. No.
  - Q. So you just went there because your friend goes there and...
  - A. Yeah, exactly, that's why.
  - Q. What is your friend's name?
  - A. I think it is Manricio.
  - Q. Last name?
  - A. Mauricio, I don't know the last name, but I know the first name that is Mauricio.
  - Q. And does he have a business, do you know?
  - A. I don't know.
  - Q. Not like is he insured as a business, but it do you know if he has a business?
- A. No.

- Q. How is it that you know Mauricio, is he just a personal friend or just kind of through the
- A. Just a personal friend.
- Q. Okay, how long have you been friends?
- A. Two years ago.
- Q. Two years?
- A. Uh-huh.
- Q. And you don't know his last name?
- A. No, just only the first name.
- Q. All right, do you have all of his information, telephone number, do you guys talk on the phone and whatnot?
- A. No.
- Q. All right, so how is it that he told you to go to the insurance agent? Were you actually with him or do you work together or...
- A. (No audible response).
- Q. So you didn't talk to Mauricio?
- A. No.
- Q. Okay, so how is it that you got to the agent?
- A. This is what we see... We say this had a friend, like two years ago, but it's not have a telephone number, no more, because this is before this place, they say to me, this is... They have this insurance, and this...
- Q. So two years ago... Is he still here in Massachusetts or...
- A. Yes, I think it is in Massachusetts.
- Q. All right, so two years ago. He said I have this company, Rapo and Jepsen.
- A. Uh-huh.

- Q. And Arbeila Insurance, and when you bought a car, that's where you went, is that what you are saying?
  - A. Yeah.
  - Q. All right. So just to be clear, no one ever told you where all of this money was going, all the \$1100?
  - A. No.
  - Q. No one explained to you that you were getting a trust and setting up a business policy for insurance?
  - A. It's not explained to me, no.
  - Q. No one explained to you about the business tax ID number that was obtained?
  - A. No.
  - Q. Did you ever give anyone permission to do this for you?
  - A. No.
  - Q. All right. All right José, this conversation was recorded. Was this done with your permission?
  - A. Yes.
  - Q. And were all of your answers true to the best of your knowledge? Did you answer truthfully? Did you tell the truth? No, yes?
  - A. No, I don't understand.
  - Q. Okay, so you did understand. Let me rephrase, were you honest in your answers? In other words, did you... What you told me is true? Did you lie, what you just told me?
  - A. No, no.
  - Q. Okay.
  - A. I said it... That's all I say this.
  - Q. Okay, so what you told me is what actually happened, correct?
  - A. Correct.

- Q. All right. And you didn't... Okay, and this was recorded with your permission?
- A. Uh-huh, yes.
- Q. Okay.
