

Approved Modifications to the Commercial Statistical Plan

Approved Effective Date	Description	Status	Pages Impacted	Records Impacted
July 1, 2025	As a result of the recently approved increase to the compulsory liability limits on motor vehicle policies for policies effective July 1, 2025 and subsequent, new bodily injury, uninsured, underinsured, and property damage limit codes have been added to the Private Passenger Statistical Plan. Separate limit codes for bodily injury, uninsured and underinsured coverage have been added to identify the mandatory offer of insurance coverage. A new combined single limit code has been added to identify the increased combined single limit coverage relative to the approved compulsory limits. Those codes relative to the prior compulsory limits have been deleted as well as obsolete language.	Approved by the Division of Insurance on March 21, 2025	VI:43,44,45	Liability Premium and Loss Records
January 1, 2025	In order to match the language used in the policy forms, the definition to Coverage Code 087 has been updated to: Audio, Visual, or Data Electronic Equipment (excluding Police vehicles, Fire vehicles, and Garagekeepers).	Approved by the Division of Insurance on January 16, 2025	VI:51	Physical Damage Premium and Loss Records
January 1, 2024 (Optional July 1, 2023)	As a result of the recently approved commercial rate filing that introduces an out-of-state rating differential for zone-rated vehicles garaged outside of northern New England, the reporting instructions in the Commercial Statistical Plan have been updated to require the reporting of premium town code for ceded zone-rated vehicles. A note has also been added to the Classification Code Decision Table indicating that premium town code is required for ceded zone-rated vehicles.	Approved by the Division of Insurance on October 28, 2022	IV:2,8,13 A:2	All
January 1, 2024	Currently, symbol code and value code are used to capture the value of a vehicle or motorcycle, respectively. These codes define ranges of values, and most reported codes are clustered in only a few codes. For vehicles and motorcycles valued greater than \$90,000, original cost new is reported.		IV:14 V:16 VI:54-55, 58 VIII:1,6-7 A:2-3	Physical Damage Premium and Loss Records

	In order to efficiently and accurately capture the value of vehicles and motorcycles, the Commercial Statistical Plan has been updated to require reporting of original cost new on all eligible vehicles and motorcycles, instead of only those valued at \$90,001 and above. With this change, the reporting of symbol code on the detail statistical record will be discontinued. Accordingly, the Reporting Instructions, Record Layouts, and Decision Tables have been updated to reflect that this field is reserved for future use.			
January 1, 2024 (Optional January 1, 2023)	A new Classification Code, 915000, has been added to the Commercial Statistical Plan. The Transportation Network Services Use code is applicable to voluntary business only and will be used to identify primary coverage of the TNC to its clients for ride-sharing, ride-hailing, on-demand delivery and other transportation network services. The new code has also been added to the Classification Code Decision Table with required statistical coding.		VI:16 A:2	All

Approved Modifications to the Commercial Statistical Plan (continued)

Approved Effective Date	Description	Status	Pages Impacted	Records Impacted
January 1, 2024 (Optional January 1, 2023)	As a result of the broadened definition of a volunteer eligible for non-owned coverage for other than social services, two new classification codes have been added to the Commercial Statistical Plan. Classification codes 667400 and 667600 are applicable to voluntary business only and will be used to identify Volunteers (Other than Social Service Agency Risks) and Individual Liability of Volunteers (Other than Social Service Agency Risks).	Approved by the Division of Insurance on October 28, 2022	VI:23	Liability Premium and Loss Records
January 1, 2024 (Optional January 1, 2023)	In order to capture more company-specific enhancements to physical damage coverage, two new miscellaneous other than collision coverage codes have been added to the Commercial Statistical Plan. These new codes identify additional towing and labor coverage and roadside assistance coverage. The new codes are applicable to voluntary business only and have		VI:50 A:3	Physical Damage Premium and Loss Records

	been added to the Coverage Code Decision Table with required statistical coding. Additionally, references to older policy effective years which are no longer reportable to CAR have been deleted.			
	To identify On Hook coverage, coverage code 088 has been added to the Commercial Statistical Plan. The new code is applicable to voluntary business only and has been added to the Coverage Code Decision Table with the required statistical coding.		VI:50 A:3	Physical Damage Premium and Loss Records
