Secondary Classification - Special Industry Class.

1. These classification and codes, but not the rating factors, apply to zone rated automobiles.
2. Where more than one secondary rating factor applies, classify the risk using the secondary classification with the largest secondary adjustment unless 80% or more of the use is in a single secondary classification with a lower secondary adjustment. In that case, classify the risk using the secondary classification associated with the smaller adjustment.

Commercial Automobile Insurance Manual

PRO RATA AND SHORT RATE TABLES

INSTRUCTIONS FOR USE OF THE SHORT RATE TABLE:

1. Determine the pro rata earned premium factor in accordance with the instructions for use of the Pro Rata Table.
2. Add to the pro rata factor the following factor:

Policy Period Months in Effect		
in excess of	but less than	Factors
0	1	.000
1	2	.055
2	3	.050
3	4	.045
4	5	.040
5	6	.035
6	7	.030
7	8	.025
8	9	.020
9	10	.015
10	11	.010
11	12	.005

3. Apply the factor determined in 2 above to the annual premium to compute the percentage of the annual premium which is to be retained by the company.

Example:

Pro rata premium in example	.214
Short rate factor (policy in effect for 2-3 months)	<u>.050</u>
	.264

Earned premium for annual policy cancelled on a short rate basis is .264 times the annual premium.

Commercial Automobile Insurance Manual**PRO RATA AND SHORT RATE TABLES****INSTRUCTIONS FOR USE OF PRO RATA OR SHORT RATE TABLE**

1. Express the date of cancellation by year and decimal part of a year by combining the calendar year with the decimal appearing opposite the month and day in the Pro Rata Table, e.g., March 7, 1995 is designated as 1995.181.
2. In like manner express the effective date of the policy by year and decimal part of a year and subtract from the cancellation date.
3. The difference represents the percentage of the annual premium which is to be retained by the carrier.

Examples:

Cancellation date September 22, 1995	1995.726
Effective date July 6, 1995	<u>1995.512</u>

Earned premium for one year policy term will therefore be .214 times the annual premium.	.214
--	------

Cancellation date March 7, 1995	1995.181
Effective date December 15, 1994	<u>1994.956</u>

Earned premium for one year policy term will therefore be .225 times the annual premium.	.225
--	------

NOTE: As it is not customary to charge for the extra day (February 29) which occurs one year in every four years, these tables shall also be used for each such year.
