

#### **A. Rating a Ceded Policy**

##### **1. General**

A Servicing Carrier shall rate all policies ceded to Commonwealth Automobile Reinsurers (CAR) in accordance with the Commercial Automobile Insurance Manual which is available on CAR's website under the Manuals tab.

A Servicing Carrier shall charge the policyholder a premium for the policy based on the coverage and limits provided at the rates filed by or on behalf of CAR and approved by the Commissioner of Insurance. Refer to the Rate Section of the Commercial Automobile Insurance Manual.

##### **2. Experience Rating**

A Servicing Carrier must adjust the premium for each ceded risk that is eligible for experience rating, in accordance with the requirements set forth in the Massachusetts Commercial Automobile Experience Rating Plan. The Massachusetts Commercial Automobile Experience Rating Plan Manual is available on CAR's website under the Manuals tab.

For additional information relative to experience rating reporting requirements, available informational reports and applicable non-compliance penalties, refer to Section D. of this Chapter.

##### **3. Verification of Proper Rating**

###### **a. Commercial Rate Edit**

CAR edits ceded commercial premium data for the latest two policy effective years to assure that it has been rated properly. The Commercial Rate Edit is run on a weekly basis after ceded commercial premium data is loaded to CAR's Accounting System. CAR's weekly processing schedule is available on CAR's website under the Schedules tab.

Using the statistically reported rating components, the rate edit system calculates the expected premium. The calculated premium is compared to the premium reported on the statistical record and any discrepancies are identified. Records with more than a 10% discrepancy are considered to be in error and are required to be corrected. Note that it is possible that the error may be attributed to incorrectly reported statistical information rather than a calculation discrepancy. Corrections may only be made by submitting offset and re-enter adjustment records in a subsequent monthly accounting/statistical submission. For additional information relative to offset and re-enter procedures, refer to the Massachusetts Commercial Automobile Statistical Plan and CAR's Policy Edit package which are available on CAR's website under the Manuals tab.

Servicing Carriers are responsible for assuring that the cumulative percentage of rate errors for each line of business and policy effective year remains below an established rate edit tolerance level, with an established minimum volume of records in error. Once the company exceeds the tolerance and minimum volume levels, the company is provided with six monthly accounting/statistical shipments to reduce its cumulative error percentage to below the established tolerance level. Specific details relative to the established tolerance level is available in Section A. of Part VII – Statistical Data Quality Program of the Massachusetts Commercial Automobile Statistical Plan.

A Servicing Carrier that does not reduce its rate edit error percentage to below the established tolerance level by the six month deadline will be assessed a penalty. For each subsequent month that the Servicing Carrier's rate edit error percentage remains over the tolerance level, an additional penalty will be assessed. Specific details relative to the established penalty amounts and assessment procedures is available in Section B. of Part VII – Statistical Data Quality Program of the Massachusetts Commercial Automobile Statistical Plan.

Additional information relative to available rate edit error and penalty reports is available on CAR's website under the Reports tab.

b. Ceded Commercial Audit

On a biennial basis, CAR performs premium audits for a sample of a Servicing Carrier's ceded commercial policies. For the policies audited, the Servicing Carrier is required to provide CAR with supporting information needed to rate the policy. CAR will rate the policy using the applicable commercial rates and Experience Rating Plan, to verify that the premium statistically reported by the Servicing Carrier has been properly rated. All premium discrepancies identified must be corrected by submitting offset/re-enter adjustment records in a subsequent monthly accounting/statistical shipment within two accounting months from the distribution date of the final audit report.

For additional information relative to CAR's commercial audit, refer to Chapter IX – Compliance Audit of this Manual. For additional information relative to the submission of offset/re-enter records, refer to CAR's Policy Edit Package and the Massachusetts Commercial Automobile Statistical Plan which are available on CAR's website under the Manuals tab.

4. Required Limits and Coverages for Ceded Risks

G.L. c. 175, § 113H requires that a Servicing Carrier must make at least the following coverages and limits of liability available to commercial risks ceded to CAR:

a. Liability Coverages

Bodily Injury – \$250,000/\$500,000  
Medical Payments – \$5,000

## B. Premium Reporting

### 1. General

Servicing Carriers shall statistically report premium on ceded policies in accordance with the reporting instructions contained in the Massachusetts Commercial Automobile Statistical Plan which is available on CAR's website under the Manuals tab.

### 2. Reporting Policies with Non-Cedeable Limits or Coverages

For policies written with limits or coverages which exceed the cedeable limits or coverages identified in Section A. of this Chapter, a separate premium record must be reported to identify the portion of the premium applicable to the excess limits or coverage. This record must be reported with classification code 800000 (Non-Cedeable Limits) and a voluntary CAR Identification code. Refer to the Decision Table of the Massachusetts Commercial Automobile Statistical Plan for additional coding requirements for this classification code. The portion of the premium applicable to the cedeable limits or coverage must be reported on another record with a ceded CAR Identification Code in accordance with the statistical reporting requirements specified in the Massachusetts Commercial Automobile Statistical Plan. The Plan is available on CAR's website under the Manuals tab.

### 3. Monitoring the Reporting of Premium

Each policy with an active in-force cession is edited to ensure that positive policy premium has been reported. The Cession/No Premium Warning and Penalty Listings identify those policies for which either no premium exists or negative premium has been reported. The Cession/No Premium penalty program and write-off procedure assure that premium for ceded policies is reported to CAR in a timely manner. For additional information, refer to Section C of this Chapter and CAR's Policy Edit Package which is available on CAR's website under the Manuals tab.

### 4. Mid-Term Cession of a Policy to CAR

A policy originally written as voluntary by a Servicing Carrier may be ceded to CAR subsequent to the policy effective date. The Servicing Carrier's responsi-

bility for loss coverage will be relinquished as of the cession receipt date. However, the premium for the entire policy term is due CAR.

5. Mid-Term Removal of a Policy from CAR

After ceding a policy to CAR, a Servicing Carrier may decide to retain the policy as voluntary business. The policy may be removed from CAR mid-term by canceling the ceded policy via Transaction Code 13 (Cancellation of Policy Pro Rata or Short Rate) and re-writing a voluntary policy under a different policy number. For additional detail relative to the mid-term removal of a ceded policy, refer to Section C.3.b. of Chapter IV – Cession Rules and Procedures of this Manual.

**C. Cession/No Premium and Net Negative Premium Error Listings and Penalty Procedures**

To ensure that positive premium is reported for each policy that has an active in-force cession, CAR produces several error listings. A policy that remains in an error status for a specified period of time will periodically be assessed a \$60 penalty and when premium reporting is closed out for a particular policy year, if the unreported premium condition still exists, the affected policy will be assessed a write-off penalty. A policy in error will initially be listed on the Cession/No Premium Warning Listing and then, if uncorrected, will move to the Cession/No Premium Penalty Listing. These listings and associated penalty and write-off procedures are described in further detail as follows:

1. Cession/No Premium Warning Listing

The Cession/No Premium Warning Listing provides a detail listing of cessions for which no positive premium exists. The listing is updated weekly in conjunction with CAR's Accounting Load (refer to Section B. of Chapter VIII – Accounting Edit and Correction Procedures of this Manual). To access this listing, select the Accounting Corrections Option from the CAR Accounting System (TE120) screen (refer to Exhibit V-C-1). Then select the Warning and Penalty Policies function from the Accounting Online Access System – Menu Selections (CO100) screen (refer to Exhibit V-C-2). From the Warning and Penalty (CO400) screen (refer to Exhibit V-C-3) a Servicing Carrier may view all policies or a summary by policy effective year of all policies that are in a warning status or policies that are in a warning status as of a specific listing date (refer to Exhibit V-C-4). To identify those cessions appearing on the list for the first time with a cession/no premium error, select the Warning Policies Appearing on Latest List Date function. Cessions in error will continue to appear on the listing until the error condition is resolved or the cession/no premium write-off occurs. Refer to Section C.3. of this Chapter for additional information relative to the cession/no premium write-off.

A Servicing Carrier will have approximately five monthly accounting/statistical shipments to report positive policy premium or to report, if applicable, a Transaction Code 4 (Policy Not Taken or Cancelled) cession record. Refer to Section C. of Chapter IV – Cession Rules and Procedures of this Manual for information relative to cession termination procedures.

If the cession remains in error after that time period, the cession will be listed on the Cession/No Premium Penalty Listing and will become eligible for a semi-annual \$60 Cession/No Premium penalty. Refer to Section C.2. of this Chapter. For an example of the cession/no premium penalty and write-off process, refer to Section C.4. of this Chapter and CAR's Policy Edit Package which is available on CAR's website under the Manuals tab.

However, if new activity on an existing policy causes a cession/no premium error to occur, it is possible that the policy will appear on the Cession/No Premium Warning Listing and will move more quickly to the Cession/No Premium Penalty Listing. It is also possible that a policy may never appear on the Cession/No Premium Warning Listing, and become immediately eligible for the Cession/No Premium Penalty Listing and a \$60 penalty.

## 2. Cession/No Premium Penalty Listing

If premium is not received by the due date of the seventh monthly accounting/statistical premium shipment from the cession effective date, the cession will be listed on the Cession/No Premium Penalty Listing, a report similar in format to the Cession/No Premium Warning Listing. A Servicing Carrier will be assessed a \$60 penalty for each policy that is listed on the Cession/No Premium Penalty Listing, semi-annually on approximately June 1 and December 1, after processing the March and September accounting/statistical shipments. To identify the current total penalty amount, select the Penalty Policies function from the Warning and Penalty (CO400) screen. The Servicing Carrier may view all policies in a penalty status or a summary by policy effective year or as of a specific listing date (refer to Exhibit V-C-5).

Penalties will be processed as bulk adjustments to a Servicing Carrier's Settlement of Balances and Member's Participation Reports. Penalties will continue to be assessed semi-annually until the cession/no premium error condition is resolved or the cession/no premium write-off occurs. Refer to Section C.3. of this Chapter for additional information relative to the cession/no premium write-off. For an example of the cession/no premium penalty and write-off process, refer to Section C.4. of this Chapter and CAR's Policy Edit Package which is available on CAR's website under the Manuals tab.

Servicing Carriers may appeal for the reversal of a \$60 cession/no premium penalty in the instance where a policy is cancelled subsequent to the policy effective date and which generates policy premium of less than \$5. The Servicing Carrier should provide CAR with proper documentation to substantiate its appeal, including, but not limited to, the policy number and effective year of each policy for which a \$60 cession/no premium penalty is being appealed, the policy's Coverage Selections Page, and any existing cancellation documentation. If the appeal of a \$60 penalty has been previously approved for a particular policy, a copy of correspondence between CAR and the Servicing Carrier is sufficient documentation for any further \$60 penalty appeals for the same policy.

### 3. Cession/No Premium Write-Off

The reporting of ceded premium for a particular policy effective year is discontinued two years following the end of a policy effective year. For example, the ceded premiums for policy effective year 2016 may only be reported through the December, 2018 monthly accounting/statistical shipment. If CAR has not received the premium for the cession by the time the reporting of ceded premium for a particular policy effective year has been closed out, the cession will be subject to write-off.

On a yearly basis, following the close-out of reporting for a specific policy effective year, a Servicing Carrier will be assessed a penalty based upon the average ceded statewide premium for the policy year for each cession written-off. The write-off amount for each policy effective year will be calculated separately for taxi/limousine/car service business and all other commercial business. Servicing Carriers are notified of the established cession/no premium write-off penalty amounts via a CAR Bulletin that is posted to CAR's website. The cession/no premium write-off penalties are in addition to any semi-annual \$60 cession/no premium penalties that may have already been assessed. Penalties will be processed as bulk adjustments to a Servicing Carrier's Settlement of Balances and Member's Participation Reports for the quarter ending March 31.

Servicing Carriers may appeal for the reversal of a Cession/No Premium Write-Off penalty in the instance where a policy is cancelled subsequent to the policy effective date and which generates policy premium of less than \$5. The Servicing Carrier should provide CAR with proper documentation to substantiate its appeal, including, but not limited to, the policy number and effective year of each cession/no premium write-off error being appealed, the policy's Coverage Selections Page, and any existing cancellation documentation. For those appeals for which \$60 cession/no premium penalties had been previously approved for a particular policy, a copy of correspondence between CAR and the Servicing Carrier is sufficient documentation for any further write-off penalty for the same policy.

#### 4. Example of Cession/No Premium Penalty and Write-Off Process

A cession record with a policy effective date of February 7, 2016 is reported. Ceded policy premium is due in the February, 2016 monthly accounting/statistical shipment which is due at CAR on April 15, 2016. If positive premium is not reported for the policy by the shipment due date, the policy will be flagged with a cession/no premium error. The following table identifies the dates that the policy would appear on the Cession/No Premium Warning and Cession/No Premium Penalty Listings and the associated penalty amounts.

| Example: Policy with Effective Date of February 7, 2016  |   |   |   |
|--|---|---|---|
| If positive premium not reported:                        |   |   |   |

| May 28, 2016   | Oct. 28, 2016   | Nov. 28, 2016   | April 2019  |
| June 28, 2016  |   | May 28, 2017  |   |
| July 28, 2016  |   | Nov. 28, 2017   |   |
| Aug. 28, 2016  |   | May 28, 2018  |   |
| Sept. 28, 2016   |   | Nov. 28, 2018   |   |

Note that a late reported cession may not list on the Cession/No Premium Warning or Cession/No Premium Penalty Listings for the full listing cycle prior to the policy being written-off.

#### 5. Net Negative Premium Listing

A Servicing Carrier may select the Net Negative Premium (CO500) function from the Accounting Online Access System – Menu Selections (CO100) screen to view a listing of policies reported with net negative premium (refer to Exhibit V-C-6). The Net Negative Premium Policies screen (CO510) displays the detail premium records that have created the net negative premium condition. A summary report by effective year is also available. Corrections must be made by submitting offset and re-enter records in a monthly accounting/statistical shipment.

Note that policies with Net Negative Premium errors may also appear on other listings. Policies with net negative premium which have an active in-force cession will appear on the Cession/No Premium Warning Listing or on the Cession/No Premium Penalty Listing. Policies with net negative premium which do not have an active in-force cession appear will appear on the Critical Accounting Error Listing flagged with an Error Code 1 – No Valid In-Force Cession. The policies will also be flagged with non-critical Error Code 5 – Net Premium Not Positive and may also potentially contain

other accounting errors. Refer to Sections B. and D. of Chapter VIII – Accounting Edit and Correction Procedures of this Manual.

6. Net Negative Premium Write-Off

After the close out of premium reporting and after the Cession/No Premium Write-Off has taken place for a particular policy effective year, all policies for that effective year that have an overall reported premium amount of less than \$0 will be identified and will be subject to the Net Negative Premium Write-Off process. Under this process, the negative premium amount will be offset by CAR such that the total policy premium will net to \$0. Offsetting premium records will be loaded to CAR's Accounting System and will be reflected in a Servicing Carrier's Settlement of Balances and Member's Participation Reports for the quarter ending March 31. The net negative premium write-off is performed in addition to any other penalties or write-offs to which the policies may be subject.

#### **D. Experience Rating Procedures**

##### **1. Reporting Requirements for Experience Rated Policies**

For each ceded policy subject to experience rating, a Servicing Carrier must submit an Experience Rating Notification. The Experience Rating Notification must be submitted through CAR's online Experience Rating System within 120 calendar days from the effective date of the ceded policy. To enter a notification, on CAR's website from the Reports tab, click on the Experience Rating link. Under Submit Data, click on the Add/New link (refer to Exhibit V-D-1).

The information added via the notification is compared to statistically reported premium data for the policy to ensure that the ceded policy has been accurately rated and reported to CAR. The system will calculate the applicable liability and/or physical damage modification factors for the policy and a variety of informational listings are also available. Users may update, delete, browse or renew modifications previously entered, view transaction history, prior policy, and affiliation reports and view an experience rating calculation worksheet for each notification submitted. For a description of available reports, refer to the Experience Rating System Help Manual.

On a quarterly basis, for each policy year, experience rating compliance reports are produced. These reports include a discrepancy report, a report that identifies policies determined to be eligible for experience rating but for which a notification is not reported and a report that identifies policies for which a notification is reported but the policy is not determined to be eligible for experience rating. Penalty reports are also produced for each policy year. The reports are produced five times in total commencing with the June quarter of the policy year and ending with the June quarter of the following year. For additional information relative to error and penalty reports, refer to Sections D.2. and D.3. of this Chapter.

For additional information relative to experience rating, including a risk's eligibility for experience rating and how to calculate the risk's experience modification, refer to the Experience Rating Plan Manual which is available on CAR's website under the Manuals tab.

## 2. Experience Rating Non-Compliance Penalties and Penalty Reports

If an Experience Rating Notification is not submitted within 120 calendar days from the effective date of the eligible ceded policy, penalties will be assessed as follows:

| Notification of Policy Subject to Experience Rating –<br>Date Submitted | Penalty Amount |
|---|----------------|
| 121 - 150 days from the policy effective date                           | \$ 25          |
| 151 - 180 days from the policy effective date                           | \$ 50          |
| 181 - 210 days from the policy effective date                           | \$ 75          |
| 211 or more days from the policy effective date                         | \$100          |

Policies eligible for an Experience Rating penalty will be listed on a Penalty Report, which is updated on a quarterly basis (refer to Exhibit V-D-2). Note that policies that are eligible for experience rating but for which a notification has not been submitted that are listed on the Eligible but Not Reported report as of the final report cycle of the policy year, will be assessed the maximum experience rating penalty. Penalties will be processed as bulk adjustments to a Servicing Carrier's Settlement of Balances and Member's Participation Reports.

## 3. Experience Rating Compliance Reports

### a. Discrepancy Report

This report lists policies with differences between the experience modification calculated by CAR, the company reported experience modification and the Rating Modification Factor code as reported on the company's premium statistical records (refer to Exhibit V-D-3). A policy in error will continue to be listed on this report until the discrepancy is corrected.

### b. Policy Eligible for Experience Rating – Experience Rating Notification Form Not Reported Listing

This report lists ceded policies which are determined to be eligible for experience rating but for which an Experience Rating Notification has not been submitted (refer to Exhibit V-D-4).

A policy's eligibility for experience rating is determined based upon reported statistical data. A match is made between the company number, policy number and effective month and year of reported statistical data to the same information reported via the Experience Rating Notification. The eligibility criteria for specific commercial classifications and coverages is included in the Experience Rating Plan Manual which is available on CAR's website under the Manuals tab. The reason that CAR

has found the policy to be eligible for experience rating is identified on this listing.

A Servicing Carrier must research each policy identified on the listing and enter the corrective action to be taken in the Corrective Action Taken column. If the Servicing Carrier believes that a policy is not eligible for experience rating, it may also indicate that in the Corrective Action Taken column. If CAR agrees with the Servicing Carrier's assessment, CAR will accept the comment and the policy will no longer list on this report. However, if additional supporting documentation is required, CAR will contact the Servicing Carrier.

In order to ensure that all eligible policies have been experience rated and the proper notification submitted to CAR, a penalty of \$100 will be assessed for each policy for which successful corrective action was not taken and which appears on the final Experience Rating Eligible but Not Reported listing for the particular policy year.

c. Experience Rating Notification Form Reported – Policy Not Eligible for Experience Rating Listing

This report lists policies for which an Experience Rating Notification has been submitted, but according to reported statistical data and eligibility criteria, the policies are not determined to be eligible for experience rating (refer to Exhibit V-D-5).

A match is made between the company number, policy number, and policy effective month and year reported via the Experience Rating Notification to the same information on reported statistical data.

A Servicing Carrier should research each policy listed in order to identify the corrective action to be taken. CAR will assist the Servicing Carrier, if necessary.

Examples of possible corrective action are as follows:

If the policy was non-renewed or canceled flat, the Servicing Carrier may need to delete the Experience Rating Notification using the Renew/Update/Delete link. If the policy was determined to be not eligible because the Servicing Carrier had failed to link an affiliated policy, the Servicing Carrier may need to identify the affiliation using the Add/New link.

4. Exchange of Experience Rating Information

Upon request, Members must provide a Servicing Carrier with information necessary to determine the proper experience rating modification for any

policy eligible for experience rating which is to be ceded to CAR. If a Servicing Carrier is unable to obtain this information from another Member, CAR should be notified. CAR will request the Member to provide the information to the Servicing Carrier within ten business days. Failure of any Member to provide experience rating information for a ceded policy within ten business days of receiving a request from CAR will result in a penalty of \$500.
