## **Introduction**

In accordance with MGL c. 175, sec. 113H and Article IV of the Plan of Operation, each Assigned Risk Company (ARC) and Servicing Carrier is required to maintain its own Special Investigative Unit (SIU) to investigate suspicious claims, avoid payment of fraudulent claims, establish fraud deterrents, and reduce losses. All ARCs and Servicing Carriers are also required to investigate suspicious circumstances surrounding underwriting, rating, and premium issues. As a component of CAR's Compliance Audit Program, the consistency and effectiveness of each company's SIU is evaluated and measured. Audit results are provided to CAR's Compliance and Operations Committee (COPC) in its oversight role of the compliance audit program and distributed to the Division of Insurance (DOI).

The SIU Standards detailed in Appendix A of the Claims Performance Standards were approved by the Division of Insurance and require that all ARCs and Servicing Carriers provide to CAR the SIU Quarterly Activity Logs of claims and underwriting referrals investigated by the SIU. At the time of audit, a sample of 25 claims and underwriting voluntary and/or residual market referrals are selected from the activity logs to measure results for the purpose of validating adherence to the statute and Plan of Operation. Audit procedures pertaining to the SIU evaluation are documented in Appendix J of both the Private Passenger and Commercial Performance Standards.

The SIU Quarterly Activity Logs of claims and underwriting referrals used in the SIU testing are uploaded using the SIU System.

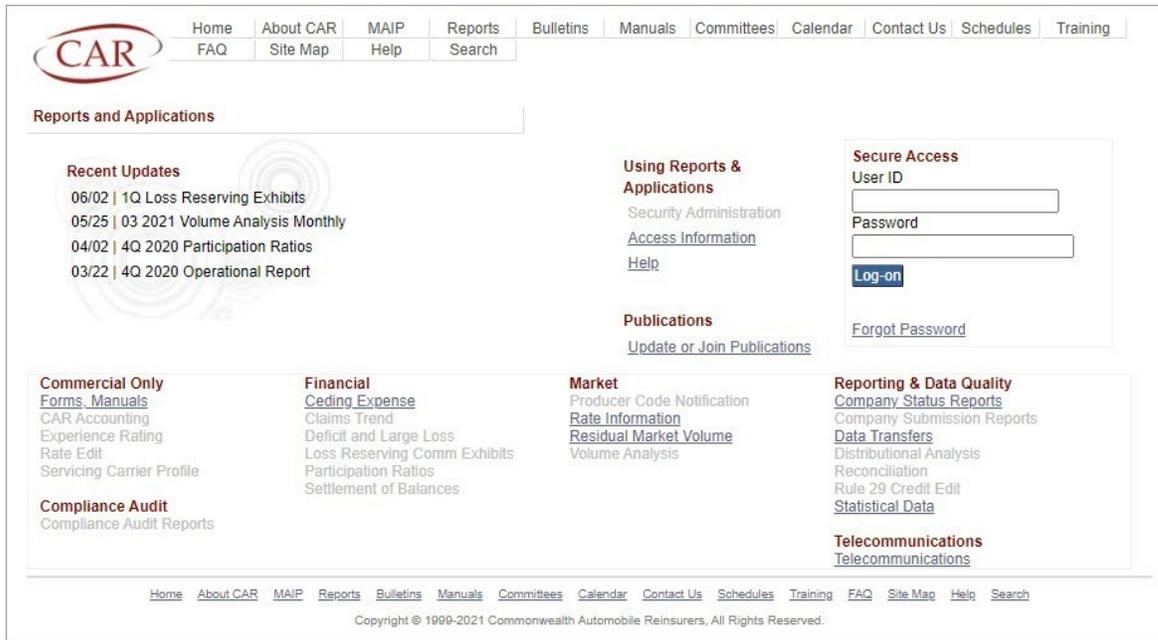

Note that pursuant to CAR Rules 10.C.2. and 32.C.2., the SIU of each ARC and Servicing Carrier is required to conduct an audit on a representative sample of policies to verify garaging and policy facts. The required template for use with private passenger and commercial reporting is located on Page 14. These completed audit reports are required to be emailed to [siulog@commauto.com](mailto:siulog@commauto.com). Staff provides an annual report to the COPC and DOI that identifies industry compliance to Rule 10.C.2. and 32.C.2. at the company level.

## Upload SIU Quarterly Referrals

Two types of investigation referrals to the SIU exist: claim referrals and underwriting referrals. Each type of referral has its own SIU Quarterly Data Upload Template. Prior to submitting a data upload, determine the type of referral, then download and save the appropriate SIU Quarterly Data Upload Template. **Both the claim and underwriting templates are Excel spreadsheets that are located on the Compliance Audit Report Data page.** These two templates are used to submit data through the SIU Quarterly Data Upload system. Both Excel templates require a file conversion to a .csv file type. This must be performed prior to completing the upload of either the claim or underwriting referral template with company-specific data.

## Data Template – Claims

The following is the required filename format for the Excel spreadsheet:

**CoNo\_ReviewYear\_ReviewQtr.csv**

Where:

- **CoNo** is the 3-digit company number for the upload as selected on the upload screen.
- **ReviewYear** is the current year of the upload in ‘YYYY’ format.
- **ReviewQtr** is the current quarter of the upload.
- For example, for company 45, ReviewYear 2021, ReviewQtr 4:
  - The file name is: 045\_2021\_4.csv.

Note that the correct filename format is required for data to be uploaded.

The Data Template – Claims is an Excel spreadsheet located on the SIU Quarterly Referral page. The template includes the following fields:

	A	B	C	D	E	F	G	H	I	J	K	L	M	N
