- MEMORANDUM -

TO: All Recipients of the CAR Operational Reports

FROM: Lisa Traynham

DATE: December 10, 2010

RE: Operational Reports

The 3rd quarter 2010 Operational Reports follow this memorandum. This report includes data reported August 17, 2010 through November 15, 2010 for the accounting month period of July 2010 through September 2010. Please note that a number of small modifications have been incorporated into this set of reports, including some heading changes, moving reports into different sections, and the addition of a new report. If you have any comments or suggestions to improve the usefulness of these reports, please contact me.

Section I – Accounting/Statistical Shipments:

CAR reported in Accounting and Statistical No. 524 revisions to the Massachusetts Private Passenger Statistical Plan promulgated by the Division of Insurance on June 24, 2010. Companies will no longer be required to report vehicle symbol. This modification was approved for policies effective January 1, 2011 and subsequent.

There are no proposed changes for the Commercial Statistical Plan at this time.

CAR assessed a total of \$18,450 in the Statistical Data Quality Penalty Program in the 3rd Quarter 2010 Settlement of Balances report.

Section II – Cession/MAIP Placement Record Reporting:

This section has been renamed and will now include a new report – MAIP Placement Record Reporting Analysis, which highlights valid and invalid activity related to MAIP Placement Record reporting. CAR solicits responses from companies with excessive error counts and these responses are also included in this section.

CAR mailed the CA5010 - Flat Cancellation report on August 6, 2010 and the documentation was due back at CAR on October 22, 2010. Penalty assessments amounted to \$4,800.

OPERATIONAL REPORTS 3RD QUARTER 2010

Section III – Residual Market Information:

This section has also been renamed and now includes various status reports related to residual market commercial and private passenger markets share, participation ratios, and quota share.

As of September 2010 the commercial residual market rate equaled 16.1. Final 2009 Participation Ratios were posted to CAR's website on December 6, 2010.

CAR posted the September 30, 2010 Quarterly Member Participation Reports to its website on December 10, 2010.

CAR ran the 3rd Quarter 2010 Rule 29 credit edit download reports in October, 2010.

Section IV – Accounting System Processing:

CAR produced 3rd Quarter 2010 Critical Error Loss Write-Offs and 10% Loss of Investment Fees totaling \$1,937 and \$-248 respectively.

Relative to the Audit Review, CAR lists the "Audit Review" actual and potential penalties against 2009 and 2010 policy effective years following the monthly accounting shipments due the 15th of every month for all companies remaining over the tolerance level of 1% and 10 policies in error.

The Penalty Forecasting exhibits were posted to CAR's website on December 10, 2010.

Section V - Statistical Agent Functions:

As announced in Accounting & Statistical Notice No. 508, the Statistical Data Quality Penalty Program outlined in both the Private Passenger and Commercial Statistical Plans was revised to assure that complete and accurate statistical data is reported to CAR. Accordingly, the Annual Statement program has been expanded to monitor the receipt of Statutory Page 14s for Massachusetts on a quarterly basis including any corresponding out-of-balance explanations.

Second Quarter 2010 Statutory Page 14 data was due at CAR on September 5, 2010. Penalties amounted to \$3,000 for companies that submitted their data after the due date. The Reconciliation Responses for Second Quarter 2010 were due back on November 3, 2010 and penalties for those late responses amounted to \$400. These penalties were included in the Third Quarter Settlement of Balances.

All companies that exceed the commercial rate edit tolerances are listed on pages 24-25.

Section VI – Communications:

CAR added functionality for Security Administrators to update the activity status, update the e-mail addresses, and process changes to a user's security profile. If you need access to the reports, please contact your company's security administrator to request access.

I. STATISTICAL SYSTEM

A. Reporting of Company Shipments

The monthly submission of statistical data is due at CAR according to the Call Schedule contained in the table below. The timeliness exhibit on the following page reflects the timeliness status of all companies for 2010 as of the third quarter. That is, it reflects those companies whose submissions were not complete by the due date indicated below.

2010 CALL SCHEDULE		
Submission	Due Date	Quarter

B. Statistical Plan Penalty Fee Program

CAR assesses various statistical penalties as outlined in the Data Quality Penalty Section of the Private Passenger and Commercial Statistical Plans. These penalties include items such as incomplete monthly submissions, late submission of page 15 data, reconciliation responses, and failure to reduce a statistical shipment's error percent to below 5%.

For 3rd Quarter 2010, CAR assessed a total penalty amount of \$18,450. The table below shows the detail penalties for each company.

II. CESSION/MAIP PLACEMENT RECORD REPORTING

A. Cession Submission

CAR accepts cession data via two different methods: on-line telecommunications and FTP transmission. Please contact your company's Data Analyst if you need assistance in gaining access to CAR's telecommunications system.

In 2010, CAR accepts cession records and cession corrections on commercial business for policy years 2008-2010. On private passenger business, CAR accepts cession records and cession corrections for policy dates 1/1/2008 – 3/31/2009. Beginning 4/1/2009, cessions no longer apply to private passenger business.

B. Cession Backdates

1. TX1/TX2 Cession Backdate Appeals based on Intent to Cede

In instances where a company provides documentation showing its intent to cede a specific policy, CAR maintains the authority to act upon those appeals provided the backdate request does not exceed 25 policies. Furthermore, the appeal and associated documentation must meet the criteria outlined in Chapter 2 of the Manual of Administrative Procedures. For any policy that does not meet the criteria, CAR does not have the authority to grant the appeal; the company then can present the appeal before the Operations Committee.

There have been no “intent-to-cede” appeals since the last publication of the Operational Reports.

2. TX5 Cession Backdate Appeals

In instances where a company intended to write a policy voluntary, it can appeal for a transaction 5 (uncede) backdate. CAR maintains the authority to approve these types of appeals when the documentation provided clearly shows the company made the decision to write the policy voluntary prior to the policy effective date.

The table on the following page reflects the log of cession backdate requests CAR Staff processed since the last publication of the Operational Reports on September 17, 2010.

11/10/10	154	22	11/10/10	Yes	Decision to retain the policy as voluntary was made prior to policy effective date.

3. CR215 Cessions Automatically Backdated

On a quarterly basis, CAR produces the CR215 report that shows the volume of cessions backdated for involuntary producer business. The program monitors the three current reporting years for cession activity. Accordingly, CAR recently sent the latest report to the industry in November 2010 monitoring policy years 2008, 2009 and 2010 for 3rd Quarter 2010.

Please note CAR will no longer be monitoring Private Passenger business in this system.

The following exhibits show the industry's volumes of backdated cessions. On the report itself, the column to the right of percent backdated indicates if the volume of backdated producers exceeds the tolerance level. Accordingly:

- an asterisk (*) indicates that more than 5% of the total new business cessions for the company are backdated.
- a pound symbol (#) indicates more than 5% are backdated but fall within the tolerance level. (*The tolerance level is 5% and 25 policies in error.*)

C. CA5010 Flat Cancellation Audit

Twice per year CAR runs the CA5010 - Flat Cancellation Documentation Listing. Its purpose is to randomly sample flat-canceled policies to verify that the industry is using flat-cancellation transactions properly. CAR ran the latest CA5010 back on August 22, 2010 and the documentation was due back on October 22, 2010. Upon reviewing the documentation, the following exhibit shows results from the August 2010 report. CAR assessed penalties in the Third Quarter Settlement of Balances.

D. MAIP Placement Record Reporting Analysis

On a monthly basis, CAR reviews the quality of MAIP Placement Record reporting and produces a report which highlights the error counts for various types of errors. Companies with excessive error counts are contacted and requested to research the cause of its reporting problem and if appropriate provide a corrective action plan.

C. Production of Quarterly Participation Reports

CAR posted the September 2010 Quarterly Member Participation Reports to its website on December 10, 2010. From CAR's home page, click Reports, sign-on and then select Settlement of Balances. These are secure reports that require a CAR website user id and password to view. Please contact your company's security administrator to request access.

D. Participation Base Data

The 3rd Quarter 2010 estimated Participation Ratios using data reported through September 30, 2010 will be posted to CAR's website by December 31, 2010. Final 2009 Participation Ratios were posted to CAR's website on September 8, 2010.

E. Rule 12 Participation Credits

CAR ran the final Rule 12 credit edit reports for the last time early May of 2010. These reports are still available on CAR's website under the Data Reporting and Quality Reports page.

F. CAR Financial Results

The ultimate policy year deficit projections, as of September 2010, for the latest three policy years are as follows:

(Numbers are in \$000s)

Policy Year	Private Passenger	Commercial
2008	(51,592)	2,485
2009	(10,021)	(4,943)
2010	N/A	(7,633)

This data can be found on CAR's website (www.commauto.com) in the Financial Reports area using the Deficit Projections link.

G. Quota Share

CAR posted the September, 2010 Monthly Quota Share and Assignment Order Report to its website on November 24, 2010. The report has been updated to include statistical data for October 2009 to September 2010 effective month policies reported through November 15, 2010. Member Companies can also view additional reports that provide detailed information about the data used in the Quota Share calculation on CAR's website in the MAIP section under Company.

IV. ACCOUNTING SYSTEM

A. Update of the Online Accounting System

CAR updates the online accounting system every Thursday night. Accordingly, all new premiums and loss activity and all correction activity are posted to the system on Thursday evenings and viewable to the industry on Friday mornings. This schedule deviates four times per year following the end of a quarter. The table below shows the quarter ending schedule for updates to the CAR accounting system.

Month	MAS Due Date	Accounting System Update	Quarter
January 2010	March 15, 2010	March 18, 2010	1st Quarter 2010

B. Critical Error Write-Off

To ensure that each company's cession, premium, and loss reporting is accurate and timely, CAR edits all ceded data through three edits that are deemed "critical" to sound reporting procedures. If any ceded record fails critical error code 1, 6, or 7 it lists on the critical error list. (You can find a description of these error codes in the Policy Edit Package).

For losses specifically, CAR requires every record to be fixed within one year of falling into critical error. If a loss record has not been fixed after a year of remaining in critical error, CAR writes-off that loss record and assesses an interest fee of 10%. This write-off process occurs the last Saturday of every month. The table on the following page shows the write-off amounts and associated 10% fees for third quarter 2010.

Lastly, CAR also provides loss data eligible for future loss write-offs. The potential loss write-offs for December 2010 through May 2011 are shown following the 3rd Quarter Write-Off exhibit.

C. Non-Critical Error "Audit Review" Program

Unlike critical errors, non-critical errors do not prevent loss coverage on a policy. However, they could cause a financial impact if the volume of non-critical errors exceeds the established tolerance levels. The tolerance level is 1% and 10 policies in error for each error code per effective year. If the volume of errors for a specific error code exceeds the tolerance level, the company has up to nine months to reduce the volume of errors before facing a penalty. Please reference the Policy Edit Package for more specific information. The exhibits below show year-to-date penalties and potential penalties.

D. Ceded Premium In Error – Limited Commercial Servicing Carriers

The exhibit below shows a summary of ceded premium in critical error. Companies can view their critical error policies via CAR's telecommunications system within the accounting corrections application. CAR is providing this information as a way for Limited Commercial Servicing Carriers to monitor both their ceded premium and ceded loss reporting to correct any errors prior to a write-off or close of a policy effective reporting year.

E. Penalty Forecasting Program

CAR produces the Penalty Forecasting exhibits in March, June, September, and December. The program helps companies in their correction efforts and helps Servicing Carriers track potential future penalties if corrective actions are not taken by the companies. If you do not have access to the reports, please contact your company's Security Administrator to request access.

CAR posted the 3rd Quarter 2010 forecasting reports on December 10, 2010.

F. \$60 Cession/No Premium Penalties

CAR ran the \$60 Cession/No Premium penalty program November 29, 2010. A cession qualifies for the penalty list when the premium amount on the policy totals to less than or equal to \$0 for five or more months. The table below shows those penalty results. The penalty assessments will be in the Fourth Quarter 2010 Settlement of Balances report.

Company Number	Penalty Amount
245	\$180
262	\$240
455	\$360
585	\$7,380
664	\$120
773	\$60
Total	\$8,340

G. 2008 Cession/No Premium Write-Off

The annual Cession/No Premium Write-Off amounts are based on a policy count (excluding flat cancelled and cession/no premium policies) divided by the corresponding full premium (rather than deviated), at 15 months. Please reference the table below for the write-off penalty amount for 2008 effective date policies and for historical information.

The 2008 write-off is scheduled for April, 2011.

Year	PP Penalty	Commercial Penalty	Taxi/Limo/CAR Service Penalty
2008	\$1,400	\$5,300	\$7,600
2007	\$1,500	\$5,700	\$8,600

V. STATISTICAL AGENT FUNCTION

A. Update of the Online Statistical System

CAR loads statistical data to its permanent database files and updates the online statistical system every Wednesday night. Accordingly, all new premiums and loss activity and all correction activity are posted to the system on Wednesday evenings and viewable to the industry on Thursday mornings. This schedule deviates four times per year following the end of a quarter. The table below shows the quarter ending schedule for updates to the statistical system.

Month	MAS Due Date	Statistical System Update	Quarter
January 2010	March 15, 2010	March 16, 2010	1st Quarter 2010
February 2010	April 15, 2010	April 16, 2010

December 2010	February 15, 2011	February 16, 2011	

B. Annual Statement and Annual Statement Reconciliation

CAR collects the quarterly annual statement figures from the industry according to the schedule below. Those companies that have greater than a 5% dollar difference between the data statistically reported and the financial data entered on the Page 14 must respond to this difference according to the schedule below.

Quarter	Due Date Quarterly Annual Statement	Run Date of the Reconciliation Program	Due Date Reconciliation Response
1st 2010	June 15, 2010	July 1, 2010	Approx. August 6, 2010
2nd 2010	September 15, 2010	October 1, 2010	Approx. November 5, 2010
3rd 2010	December 15, 2010	January 3, 2011	Approx. February 4, 2011
4th 2010	March 15, 2011	April 1, 2011	Approx. May 1, 2011

The Annual Statement collection of Page 14's for Second Quarter 2010 was due September 15, 2010. Penalties for late pg 14 amounted to \$3,000. Reconciliation Second Quarter 2010 responses were due November 3, 2010. Penalties amounted to \$400. Page 14 and Reconciliation penalties were included in the 3rd Quarter Settlement of Balances. CAR is currently collecting Third Quarter 2010 Annual Statement Statutory Page 14 data due at CAR on December 15, 2010. Third Quarter 2010 Reconciliation Reports are anticipated to run January 3, 2011.

V. STATISTICAL AGENT FUNCTION (continued)

C. Rate Edit Processing

CAR processes ceded commercial data through a rate editing routine for the latest two policy effective years. The table below shows the industry results by line of business and policy effective year.

	Line of Business	Eligible Records	Records in Error	Error %
COMM 2009 EFF YEAR	Liability	65,869	881	1.34%
	No Fault	39,820	232	0.58%
	Physical Damage	37,907	390	1.03%
	Total	143,596	1,503	1.05%
COMM 2010 EFF YEAR	Liability	42,247	747	1.77%
	No Fault	32,409	265	0.82%
	Physical Damage	23,684	260	1.10%
	Total	98,340	1,272	1.29%

The Commercial Rate Edit program incorporates a tolerance level to ensure the quality of the data the industry reports to CAR. The tolerance level is 2% and 50 records in error. If a company exceeds the rate edit tolerance levels on any one line of business, CAR notifies the company via its website of the over tolerance status and the company then has six months to reduce its volume of rate edit errors. The table on the following page shows those companies that are currently over tolerance and the corresponding due dates to avoid rate edit penalties.

D. Deleted Washout Records

During the weekly statistical load, CAR deletes those records that washout within the same file. The table below shows those companies whose volume of deleted washout records exceeds 20% and it shows the overall industry total for all companies combined. If you would like to know your own company's washout total, please contact your Data Analyst.

Periodically, CAR contacts those companies that have an excessive volume of washout activity to encourage them to reduce their volume.

E. Distributional Analysis

Distributional Analysis reports are produced three times a year starting with the close of the June quarter. This program was developed to ensure the quality of rate making data is appropriated with quota share data. CAR notified the industry on October 19, 2010 for the period ending June 30, 2010 and will distribute this report to companies upon request. Companies were to submit a form verifying their data by November 19, 2010 to CAR's Compliance Audit Department.

**OPERATIONAL REPORTS
3RD QUARTER 2010**

VI. COMMUNICATIONS

A. CAR's Website

CAR regularly updates its website when there are updates to existing reports, new accounting and statistical notices, or meeting announcements among many other things. Please reference the change board on the website for the latest updates.

CAR added functionality for Security Administrators to update the activity status, update the e-mail addresses, and process changes to a user's security profile. If you need access to the reports, please contact your company's security administrator to request access.

B. Telecommunications

The telecommunications system is available to the industry from 7:00 am to 6:00 pm Monday through Friday. It allows users to access data housed on CAR's mainframe such as policy history information and producer code information.

CAR implemented changes to its MAIP Placement Record system to allow certain corrections on existing MAIP Placement record such as policy number and producer code.

3RD QUARTER 2010**

VII. PROJECT STATUS REPORTS

CAR works on a variety of projects throughout the year. The table below shows the current projects CAR is working on and their current status.

Project	Status	Description
Distributional Analysis	Completed for Internal Purposes	Automate the Distributional Analysis process and move the reports onto CAR's website.
Experience Rating	Near Completion	Move the mainframe pieces of the Experience Rating application to CAR's website so that companies don't need to toggle between systems.
PP Auto Audit Hybrid Plan	Near Completion	Development of a new method for performing the private passenger statistical audits.
Producer Management	Near Completion	In-house application to effectively manage producer information and licensing.
MAIP Placement Correction	Completed	Allow certain corrections to accepted MAIP Placement records such as producer code and policy id.
MAIP Enhancement for Youthful Credit Data Acquisition	Completed	Develop a new input process for the verification of youthful classification codes for those companies not utilizing the Merit Rating Board for merit rating status. The data collected through this new input process will be used to verify quota share credits for youthful operators.
2011 Annual Statistical Update	Began October, 2010	Update edit programs to accept and process 2011 effective year data.
Vehicle Rating Group Usage	Began November, 2010	Adopt the AIB's Vehicle Rating Group to replace symbol reporting on Private Passenger business. Major systems changes required for statistical processing, MAIP Policy Application, and Policy Effective Year Strip.
